

Specialty

Distinctive, legendary, feature-rich pedals whose unique functionality has earned them one-of-a-kind status. At home both on stage and in the studio. Unique tools for unique artists.

JamMan® Stereo

Load up the JamMan Stereo with bass lines, drums, harmonies, and more; create an entire backup band, take it with you, and perform anywhere! Features true stereo looping, reverse playback, and a mic input, making it perfect for backing tracks or DJ applications. Both new JamMans connect to your computer via USB and use the new JamManager™ software to organize and archive your loops.

JamMan® Solo

When we developed the PDS 8000 looper pedal over twenty years ago, it looped eight seconds of audio. When we reinvented loopers in 2005 with the original JamMan, over 6 hours worth of material could be stored on a removable media card. Now store over 16 hours of CD-quality loops in 198 different patches with an optional SD card, all conveniently crammed in to the Solo's compact form factor.
