

LM 26 – Digital Audio Loudspeaker Processor.....PVP S/IVA 3450,00€

LM 26 Features

- * 2-in/6-out Lake® Processor
 - o Raised Cosine Equalization™
 - o Linear phase and classic crossover
 - o LimiterMax™ peak and RMS limiters
 - o Maximum available delay of 2 seconds
- * Audio Inputs and Outputs
 - o Analog with Iso-Float™ ground isolation
 - o Digital AES/EBU
 - o Dante™ by Audinate® audio networking
- * Full control via Lake Controller software application
- * Software configurable GPIO
- * Front Panel
 - o Daylight-readable display
 - o Dedicated mute buttons with LED indication
 - o Keypad and rotary encoder for parameter adjustment
- * Performance
 - o High quality A/D and D/A 24-bit conversion
 - o 96 kHz internal sampling frequency
 - o 32-bit floating point internal data path
